

prevareance

slaughtering the soul, trapping in to phetamine,
killing all the bubbles in your oxygen pipe,
I said to you, shut the fuck up,
transcend the hatred that you fucked out of the past,
my emotional state is skewed, you're trying to make me eat my own shit,
hatred is my domain, I'm not your fucking game or slave,
keep me out of the mouths of the prideful,
because they cannot fucking chew me down,
I'm a mess when you're inside me and out,
complain because you can't kill what it is not about...
